The Theta Sigma Chapter of Sigma Gamma Epsilon held its installment and first initiation ceremony on 20 October 2017. Present were chapter president Izzy Harville, vice president Jason Simmons, secretary Tyler Kee, treasurer Olivia Pate, historian Rebecca Bishop, public relations officer Mandolin Harris, and the chapter advisor Dr. Joshua Spinler.

Chapter secretary, Tyler Kee, led the initiates to Science Laboratory Room 165, where the dark room was lit by candle. Officers gave the advice of some of the early pioneers in the study of Earth Sciences and read from Sigma Gamma Epsilon’s Constitution. Included in the initiation was the Chapter’s first Associate Member, Dr. Joshua Spinler.
Jason Simmons (l) and Izzy Harville (r) reading the initiation ceremony.

Dr. Joshua Spinler, Chapter Advisor and newly initiated Associate Member.

It is the Chapter’s goal to dedicate our time and effort to the betterment of our community. Our next meeting will discuss volunteering in the Campus Garden, whose produce goes towards those in need in the greater Little Rock area.

The establishment of Theta Sigma on the University of Arkansas-Little Rock campus is a monumental one. Some 20 years ago, the Earth Sciences Department was not a degree-granting program, and to see the program move towards establishing its own chapter of Sigma Gamma Epsilon demonstrates much of the hard work, dedication, and passion our faculty, staff, and students, foster through their innate curiosity.
INITIATION OF THE THETA OMICRON CHAPTER OF SIGMA GAMMA EPSILON AT INDIANA UNIVERSITY NORTHWEST
