The TalkAbroad Case: Addressing Intercultural Communicative Competency (ICC) in FREN311

CSB/SJU Intercultural Learning Goals

Students will demonstrate:

• a level of understanding of another culture, including the awareness that it is neither monolithic nor static.

• an understanding that their perspective on the world is shaped in certain ways by their particular background.

• an awareness that when we encounter another culture, we filter the new experience through established perspectives, which makes it more difficult to uncover our common humanity and the reasons for our differences.
“In order to understand and address global issues, it is important to understand the perspectives on the world that speakers of other languages bring to the table. By learning other languages, students develop respect and openness to those whose culture, religion, and views on the world may be different”.

--Introduction to Partnership for 21st Century Skills

• Integrations Curriculum : Global Engagement
Global Engagement (GLO) Learning Outcome
Students develop awareness of their own and other cultures from outside the U.S. through experiences and develop strategies for adapting effectively and appropriately to intercultural situations.

General Course Description
In fulfilling the GLO requirement for the Integrations Curriculum, students will exercise responsibility, initiative, and judgment as they apply their knowledge and skills within intercultural situations in meaningfully adaptive ways. Through structured reflection, students will be challenged to move beyond the performance of the global engagement task to discover and internalize knowledge about themselves and the world around them in a way that is cyclical (think-act-reflect, repeat) and meaningful. […]
Concluding Remarks

• Interactive exchanges were effective in awakening cultural sensitivity and ICC.

• More intercultural curiosity in students and a greater awareness of the Francophone world, including customs, perspectives and practices.

• Developed confidence in L2/personal growth.

• As Adair-Hauck and Donato (2002) have suggested, in the interactive exchanges, the native interlocutor may:

  1. Challenge
  2. Support
  3. Empower the language learner.
Thank you! Merci!

“L2 development must be understood as essential to a full range of intercultural competence” --Alvino Fantini
